How to Play!

Help Trencitas get across the forest to visit the Bear Family!

Place your pieces on START (Empieza). The youngest player should go first. Roll a die or spin a spinner and determine the number of spaces to move. Move your piece the number of spaces indicated, and then say the color of that space in your target language (Spanish, French, German, Mandarin, etc.).

If you answer correctly, you get to stay on that space! If you answer incorrectly, go back to whichever space you came from. Whichever player reaches the END (Fin) first, wins!
